WHERE THERE IS HOPE
THERE IS HAPPINESS

VATSALYA, Delivering Happiness Each Day

Our greatest success lies in being able to touch the saddened hearts each day and making them burst into tears of happiness after long infertility traumas. Therefore, in addition to unmatched technological advancements, Vatsalya has made special provision for experts who can spare enough time to look into each case closely and provide appropriate remedies. Vatsalya welcomes Dr. Sumi Munankarmi and Dr. Nija Rajbhandari to its team of infertility specialists to upscale its current services.

📍 Dr. Sumi Munankarmi

A gold medalist MD graduate in Obstetrics and Gynecology from NAMS, Dr. Sumi Munankarmi is one of the highly skilled infertility specialists at Vatsalya. She completed her MBBS graduate from Nanjing Medical University, China. Being a dedicated individual herself, she has been diligently treating the patients with infertility concerns for more than five years now.

Dr. Sumi delivers a patient-centered treatment and empathetic care to individuals with reproductive concerns. She understands the emotional stigma that comes along with infertility and therefore provides compassionate counselling to couples. Having been deeply involved in the medical sphere for years, she has witnessed miracles of medical science and accordingly nurtures her patients' hope of fertility. She walks along the patients' reproduction journey of each couple, understands their lifestyles and imparts them a customized infertility solution based on the latest scientific research.

As a broadly preferred and qualified expert, she looks forward to enhancing infertility services with a more innovative and streamlined approach at Vatsalya.

➔ Dr. Nija Rajbhandari

Dr. Nija Rajbhandari is an adept fertility expert who serves as a supportive pillar to her patients. She accomplished her MBBS degree from Nepal Medical College and Teaching hospital and then acquired an MD (Obs/Gyn) degree from College of

Medical Science. To further enhance her competency in the field of infertility treatment, Dr. Nija recently completed her one-year fellowship in Assisted Reproductive Technology (ART) from Ajanta hospital and IVF center in India. Dr. Nija has been eagerly serving her expertise for the past four years and was also bestowed with "employee of the year" award in 2075 by a renowned hospital. Being an empathetic person by nature, she addresses each of her patient's complications minutely and also spares some personal time to get a better insight of their needs and situation.

Dr. Nija appreciates the privilege of playing an intimate role in the life of her patients and gets immense pleasure when their dreams of bearing children come true. Dr. Nija is becoming one of the top sought doctors in infertility because of her benevolent personality.
